-Providing youth with a unique experience in a natural setting that inspires learning through exploration and instills appreciation for local resources-

WINTER WONDERLAND

A full day experience filled with excitement and discovery

Grades 3rd-12th

KOSS has created Winter Wonderland for students to study and explore plant and wildlife during a different season. This hands-on outdoor science program is designed to reveal the many secrets and challenges that nature holds during its coldest time of the year.

Full day programs begins Feb. 21st through April 2011.

Students learn about winter safety, snow science, watersheds, winter ecology and animal tracking.

The natural world cannot be experienced or fully understood within the walls of a classroom. Outdoor learning engages students of all ages, promotes critical thinking & teamwork, and builds a connection to nature.
